2nd Level Leader Review

The form used for this state is exactly the same as the Leader Evaluation Form. During this state the 2nd Level Leader is encouraged to add comments in the Overall section of the evaluation. However, they will also have the ability to comment on each Goal and Essential Function or SPIRIT Value by making additional remarks in the Comments box.

Face to Face

During this state, the Associate's Self Evaluation become available to the leader and is used for the meeting with the associate.

If you have an associate who is on the Clinical Ladder, you will review both evaluations **at the same time and Associates will have to sign off on both evaluations.**

The Merit Matrix will be published on the intranet by July 25, 2016.

Employee Talent Profile Review

While at this state, the Associate is encouraged to update work experience along with education, licenses and certifications. When completed, click the Submit button to move forward.

We have moved this from the beginning of the workflow. We ask that during the face-to-face you remind or help associates with this step so that it does not hold up the completion of the evaluation.

Associate Sign Off

During this state the Associate must acknowledge the final results of their evaluation. While Associates will receive an email notification indicating that they need to do this, we encourage Leaders to monitor these workflows and remind Associate's as needed.

Completed

The Completed workflow state is what the review looks like in its archived form. Once advanced to this state the review is added to the Talent Profile and therefore, can only be viewed by the Associate, the Associate's Leader or others above the Leader.
